

# Deer Free<sup>®</sup> Winter Armor<sup>™</sup> Shrub Protector

Read thoroughly before using. This product contains latex. Do not use on fruit trees or edible crops. Be sure shrub is dry before applying. Deer Free Winter Armor also acts as a anti-desiccant (protects against winter wind burn). Do not store below 32°.

## Directions:

Shake well before using. Pour 25.6 oz of Deer Free Winter Armor into water to make 1 gallon of ready to use. Shake well. Pour into sprayer. Spray on top and bottom of leaf to assure proper coverage. Allow to dry before rain or snow fall. One application lasts all winter long. Can be applied as early as October. 320oz concentrate makes 12.5 gallons of ready to use and covers approx. 50,000 sq.ft. Sprays on a milky color and dries clear. When sprayer is empty rinse well with warm water. Deer will eat anything in extreme conditions. If winter is severe recheck for deer browsing. Re-apply if necessary. Do not apply product if bees and other pollinators are foraging in the treatment area.

This product is not registered with US EPA as Garden Girls Repellents<sup>™</sup> LLC represents that this product qualifies for 25(b) exemption under FIFRA.

**CAUTION:** Keep out of reach of children and pets. Gloves and eye protection recommended. In case of eye contact or prolonged exposure to skin, flush thoroughly with water for at least 15 minutes. If swallowed seek immediate medical attention.
